UNITED STATES DISTRICT COURT

IN THE MATTER OF AN APPLICATION :
OF THE UNITED STATES OF AMERICA : SEALED APPLICATION
FOR AN ORDER AUTHORIZING THE :
USE OF PEN REGISTERS AND :
TRAP AND TRACE DEVICES :
- - - - - X

Jacquelyn M. Kasulis, an Assistant United States Attorney for the Eastern District of New York, hereby applies to the Court for Orders pursuant to 18 U.S.C. §§ 3122 and 3123, authorizing for a period of 60 days the installation and use of pen registers and trap and trace devices on (561) 366-2379 and (561) 366-2422, telephones issued by RingCentral.com (the "service provider") (the "SUBJECT TELEPHONES").

In support of this application I state the following:

1. I am an Assistant United States Attorney in the Office of Loretta E. Lynch, United States Attorney for the Eastern District of New York. As such, I am an "attorney for the Government" as defined in Rule 1(b)(1) of the Federal Rules of Criminal Procedure, and therefore, pursuant to 18 U.S.C. § 3122, may apply for Orders authorizing the installation and use of pen registers and trap and trace devices.

2. The Court has authority to order the installation and use of a pen register or a trap and trace device anywhere in the United States if the Court finds that the attorney for the government has certified to the Court that the information likely to be obtained is relevant to an ongoing criminal investigation. 18 U.S.C. §§ 3122 and 3123. As the United States Court of Appeals for the Second Circuit has explained, an application for a pen register or trap and trace device

need only identify the applicant and the investigating law enforcement agency and certify that "the information likely to be obtained is relevant to an ongoing criminal investigation being conducted by that agency." 18 U.S.C. § 3122(b)(2). The provision was not intended to require independent judicial review of relevance; rather, the reviewing court need only verify the completeness of the certification.

In re United States, 10 F.3d 931, 935 (2d Cir. 1993) (emphasis added); accord In re Applications, 515 F. Supp. 2d 325, 329 (E.D.N.Y. 2007) (explaining "minimal requirement" of Section 3122(b)).

3. Based on information provided to me by a special agent of the Federal Bureau of Investigation (the "investigative agency"), I hereby certify that the investigative agency is conducting an ongoing criminal investigation into possible violations of federal criminal laws, including money laundering, in violation of 18 U.S.C. § 1956, wire fraud, in violation of 18 U.S.C. § 1343, and securities fraud, in violation of 18 U.S.C. §§ 1348 and 1349 and 15 U.S.C. §§ 78j(b) and 78ff, by Robert Bandfield, Andrew Godfrey, Glenna Bergey, Rohn Knowles, Kelvin Leach, Brian De Wit, Cem Can, IPC Corporate Services, Inc., IPC Corporate Services, LLC, Titan International Securities, Legacy Global Markets, S.A., and Unicorn Securities, among others, occurring in the Eastern District of New York and elsewhere, and that the information likely to be obtained from pen registers and trap and trace devices on the SUBJECT TELEPHONES is relevant to that investigation.

4. On April 7, 2014, the Honorable Lois Bloom, United States Magistrate Judge, signed an Order authorizing a pen register and trap and trace device on the SUBJECT TELEPHONES for a period of 60 days. (14-MISC-370). The Order to Service Provider, however, listed Bandwidth.com as the service provider instead of Ringcentral.com. Attached to this application is the corrected Order to Service Provider.

5. Based upon the above certification, the government requests that the Court issue an Order that provides:

a. Pursuant to 18 U.S.C. §§ 3122 and 3123, authorization for the installation and use of pen registers to record or decode dialing, routing, addressing, or signaling information — excluding the decoding of post-cut-through dialed digits ("PCTDD")¹ — transmitted from the SUBJECT TELEPHONES, to record the date and time of such dialings or transmissions, and to record the length of time the telephone receivers in question are "off the hook" for incoming or outgoing calls for a period of 60 days.

b. Pursuant to 18 U.S.C. §§ 3122 and 3123, authorization for installation and use of trap and trace devices on the SUBJECT TELEPHONES to capture and record the incoming electronic or other impulses which identify the originating number or other dialing, routing, addressing, or signaling information reasonably

¹ PCTDD "are digits that are dialed from a telephone after a call is connected or 'cut-through.'" In re Application, 632 F. Supp. 2d 202, 203 n.1 (E.D.N.Y. 2008). Pursuant to the proposed Order to Service Provider, if possible, the provider will forward only pre-cut-through-dialed digits to the investigative agency. If the provider's technical capabilities require it to forward all dialed digits including PCTDD, however, the investigative agency will only decode and forward to the assigned special agents the numbers that are dialed before the call is cut through. Thus no PCTDD will be decoded or accessed by anyone. See id. at 204 n.3 ("It is irrelevant that the provider will forward PCTDD to the Government and that the Government will therefore be able, if it violates the court order, to record and decode it.").

likely to identify the sources of wire or electronic communications and to record the date, time and duration of calls created by such incoming impulses, for a period of 60 days, and that the tracing operations be without geographical limits.

c. Pursuant to 18 U.S.C. § 3123(b)(1)(C), authorization for the requested installation and use of pen registers and trap and trace devices to include any changed telephone numbers for the SUBJECT TELEPHONES subsequently listed to the same subscriber and assigned to the same cable, pair and binding post utilized by the SUBJECT TELEPHONES within the 60-day period authorized by this Order.

6. The government further requests that the Court direct the service provider, and any other person or entity providing wire or electronic communication service in the United States whose assistance is used to facilitate execution of the Order, to notify special agents of the investigative agency, upon oral or written request, of any and all changes (including additions, deletions, and transfers) in service regarding the SUBJECT TELEPHONES, including telephone numbers and subscriber information (published and non-published, and excepting call detail records as described in 18 U.S.C. § 2703(c)(2)(C)) associated with these service changes.

7. The government further requests that, pursuant to 18 U.S.C. § 3123(a)(1) and (b)(2), the Court direct that, upon service

of the Order upon them, the service provider and any other person or entity providing wire or electronic communication service in the United States whose assistance may facilitate execution of the Order furnish the information, facilities, and technical assistance necessary to accomplish unobtrusively the installation and use of the pen registers and trap and trace devices with compensation to be paid by the investigative agency for reasonable expenses directly incurred in providing such facilities and assistance.

8. The government further requests that the Order direct the service provider, and any other person or entity providing wire or electronic communication service in the United States whose assistance is used to facilitate execution of the Order, to furnish the results of the pen register and trap and trace device installations to special agents of the investigative agency as soon as practicable, and on a continuing basis, 24 hours a day for the duration of the Order.

9. Finally, pursuant to 18 U.S.C. §§ 3123(d) and 2705(b), the government also requests that the service provider, and any other person or entity whose assistance is used to facilitate execution of the Order be ordered not to disclose to the listed subscribers of the telephones, or to any other person (a) the existence of the Order of Authorization; (b) the existence of the Order to Service Provider; and (c) the existence of the pen registers and trap and trace devices to the listed subscribers for the SUBJECT TELEPHONES, the subscribers of the telephones initiating incoming calls to or receiving outgoing calls from the SUBJECT TELEPHONES, or to any other person, unless and until otherwise ordered by the Court. Any such disclosure might jeopardize this investigation because it would alert the targets to the existence of an investigation and might lead to the destruction and/or concealment of evidence and/or the flight of targets.

10. No prior request for the relief set forth herein has been made except to the extent set forth above. The foregoing is affirmed under the penalties of perjury. See 28 U.S.C. § 1746.

This matter comes before the Court pursuant to an application by Assistant United States Attorney Jacquelyn M.
